Abstract

This web portal includes the curriculum details, upcoming project and assignment details along with study materials

This can be accessed by students and the faculties

ABSTRACT

Our system has two accessing modes , one for the faculty and another for the students. The faculty can upload notices , assign projects, upload notes , previous years question papers, reference books and monitor the whole process. Whereas the student can view the updated details , assigned projects and can access the uploaded notes , reference books , previous years question papers and other documents provided by the faculties.

Input and Output

Teachers can upload notifications, notes and assignments . Students in-turn can view them in their dashboards.

Tools and languages used
